

## 5ghz 4x4 Mimo Sector Antenna Double Dual Slant

Our Product Introduction

### Basic Information

### Product Specification

- Highlight:  
5ghz mimo sector antenna,  
4x4 mimo sector antenna,  
double dual slant mimo sector antenna

## Product Description

| Electrical                   |                                   |
|------------------------------|-----------------------------------|
| Model                        | ANT4959D19A-60XXP                 |
| Frequency Range              | 4.9-5.9GHz                        |
| Gain                         | 19dBi                             |
| Polarization                 | Double Dual Slant, $\pm 45^\circ$ |
| - 3.0dB Azimuth Beam width   | 60° typ                           |
| - 3.0dB Elevation Beam width | 4° typ                            |
| Front-To-Back Ratio          | -25 db typ                        |
| Port To Port Isolation       | 20 dB typ                         |
| Cross Polarization           | 20 dB typ                         |
| VSWR                         | <1.5 typ                          |
| Maximum Power Per Port       | 20 watts                          |
| Impedance                    | 50 ohms                           |
| Lightning Protection         | DC ground                         |
| Mechanical                   |                                   |
| Dimensions, H x W x D        | 700*260*30mm                      |
| Weight                       | 5kg                               |
| Radome Material and Color    | UV Stabilized ABS plastic, white  |
| Reflector Material           | Aluminum                          |
| Connector Type and Location  | 4 x N- Female                     |
| Operational Temperature      | -45°C to 65°C                     |
| Mechanical Downtilt          | -10° to +3°                       |
| Survival Wind Speed          | 125mph (201kph)                   |

OEM &amp; ODM for microwave communication antennas
